PROFESSIONAL EXPERIENCE

Appreciation Pvt Ltd

Mar 2024 - Present

Full-Stack Developer

Quickvee - Multi vendor E-commerce React.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS, MUI

- Developed customer-facing and admin features for a multi-vendor e-commerce platform, covering product, order, and promotional workflows.
- Implemented complex promotional logic, including product/category/order discounts, BOGO offers, mix-and-match deals, coupons, loyalty exemptions, and store credits.
- Developed checkout calculations involving discounts, taxes, tips, store credits, and **rounding adjustments ("penny fix")** to maintain accurate order totals.
- Developed and integrated **production Node.js APIs** for product search, order-method availability validation, and other e-commerce workflows.
- Optimized the superadmin merchant dropdown using **list virtualization** and enhanced purchase order workflows with autosave and faster product search.

Neel Networks

Dec 2022 - Feb 2024

Front End Developer

In-house Project Management System React.js, Redux Toolkit, Tailwind CSS, MUI

- Developed project and task management workflows for assigning work to teams and employees, tracking progress, and recording employee time logs.
- Built **role-based dashboards** for admins and managers, alongside employee to-do lists and task updates to improve work visibility and tracking.

Client Invoice Management System React.js, Redux Toolkit, Tailwind CSS, MUI

- Built project-hour tracking and automated invoice generation, with editable billing rates and hours, VAT/tax calculations, and one-click invoice delivery via email.
- **Mentored two new team members** through knowledge-transfer sessions, code reviews, and guidance on reusable, maintainable frontend code.

FREELANCE PROJECTS

ZEB AROMA Next.js, Node.js, Express.js, Prisma, PostgreSQL, Razorpay

Live Ecommerce Platform · zebaroma.com

- Built and deployed a responsive perfume e-commerce platform with product variants, persistent cart, wishlist, customer accounts, and order management.
- Integrated Razorpay payments, payment verification, order tracking, email notifications, and returns/refunds.
- Developed backend APIs and an admin panel for product, inventory, category, and order management, with authorization and input validation.

URBAN TRAVEL PARTNER Next.js, Tailwind CSS, Firebase

Live Client Website · urbantravelpartner.com

- Built and deployed a client-facing travel website with responsive layouts, interactive UI components, and animated sections.
- Implemented lead capture using **Firebase Firestore**, an admin dashboard, and email notifications for incoming enquiries.
